Web Font Stack

```
/* Headings */
font-family: 'Montserrat', 'Arial Black', Arial, sans-serif;

/* Body / editorial */
font-family: 'Georgia', 'Times New Roman', Times, serif;

/* Google Fonts import */
@import url('https://fonts.googleapis.com/css2?family=Montserrat:wght@400;500;600;700;800&display;=swap');
```

Logo Usage

Primary logo — use on white or light backgrounds.

Minimum Sizes

Format	Min Width
Digital (web)	200 px
Print	50 mm
Favicon	Symbol mark only at ≤ 48 px

✓ Use on white background	Primary — most common
✓ Use on Soft Gray (#F5F5F5)	Cards, secondary surfaces
✗ Place on busy photographs	Use solid colour overlay
✗ Stretch or squash proportions	Lock aspect ratio always
✗ Recolour the logo	Never alter logo colours
✗ Add drop shadows	Not in brand guidelines

Favicon & Digital Assets

All favicon files use the actual logo image. At sizes ≤ 48 px the gold double-E symbol mark is used on a dark background for legibility. Larger sizes use the full logo on white.
